OBJECTIVE

Computer Science undergraduate with strong knowledge of **Java, Spring Boot, and problem-solving skills**. A **consistent, helpful, and growth-focused** individual who believes in continuous learning and self-improvement. I am eager to contribute to building efficient and scalable backend solutions while growing my technical expertise and supporting the overall growth and success of the organization.

EDUCATION

Course	Institution/Board	CGPA / Percentage
Bachelor of Technology in Computer Science and Technology	Baderia Global Institute of Engineering and Management	**7.8 CGPA** (Till 4th Semester)
Class XII	St Aloysius Senior Secondary School(CBSE)	**81%**
Class X	St Aloysius Senior Secondary School(CBSE)	**91%**

PROJECTS

SaaS License Reclamation Engine

- Designed an enterprise-level SaaS license optimization system to identify inactive users and reduce organizational SaaS expenditure.
- Architected backend workflows including remediation states, audit logging, and role-based access control (RBAC) using Spring Boot concepts.
- Structured scalable backend logic to simulate real-world SaaS governance processes.

Real-Time Attendance Tracking System

- Developed a real-time attendance system in a team of three with student/teacher mobile apps and a web-based admin panel.
- Implemented live attendance tracking and record management features.
- Contributed to backend logic and integration between mobile and web platforms.

Banking Application

- Built a banking management system using Core Java and OOP concepts for account management and transactions.
- Implemented structured and modular logic to simulate real-world banking operations.

SKILLS

Programming Languages:	Java, C, C++
Frontend Technologies:	HTML, CSS, JavaScript, React.js, Tailwind CSS, Bootstrap
Backend & Frameworks:	Spring Boot
Database:	MySQL
Tools & Platforms:	Git, GitHub

CERTIFICATIONS

- Participated in **IEEE CIS Winter School on Computational Intelligence and Generative AI** at IIT Indore.
- Received **Top Performer (Open Innovation Track)** certificate at HACKSAGON 2025 National-Level Hackathon held at ABV-IIITM, Gwalior.
- Earned **two participation certificates** in Internal College Hackathons.

ACHIEVEMENTS

- Solved **100+ problems on LeetCode**, strengthening Data Structures and Algorithm skills.
- Earned the **"50 Days Badge 2025" on LeetCode** for consistent daily problem-solving.
- **Top Performer – HACKSAGON 2025** National-Level Hackathon.
- Team selected in the **IIT Guwahati Entrepreneurship Hackathon**.

EXTRACURRICULAR ACTIVITIES

- Secured **1st Position in Intra-School Chess Competition** during school.
- Represented school as a member of the football team in the **Boys JSSC Football Tournament (Class XII)**.
- Participated in college-level chess competition.
- Member of the college football team in Semester 1, representing the institution in an **Inter-College Football Tournament**.
